

100 Years of Excellence

Our centennial year has been a truly special one, filled with reflection, joy, and exciting new milestones. We kicked things off in January with a spirited gathering at a UConn women's basketball game, bringing our community together in true UConn fashion. Over the summer, we curated a centennial artifact collection, showcased at Babbidge Library, celebrating our history in tangible form. In October we capped the celebrations with a spectacular event at Lake of Isles near Foxwoods casino.

Throughout this unforgettable year, we've had the privilege of honoring our past, envisioning our future, and creating lasting memories alongside our students, alumni, faculty, staff, and friends. As we close this chapter, we do so with gratitude and excitement. We are eager to see what the next century holds!
